'Ring of Fire' Solar Eclipse

Every year, a solar eclipse takes place around the world. This year, the eclipse will take place on Saturday, October 14 and will extend from Oregon to Texas in the morning, then from the Gulf of Mexico to Central America in the afternoon, crossing Brazil.

This eclipse will not be total, because it will not hide all of the sun. Indeed, for the moon to completely hide the sun, it must be quite close to the Earth. Such an eclipse will take place on April 8.

Verstappen calls winning third title 'a fantastic feeling' as he joins elite club after Qatar Sprint

It was only a matter of a day, now it's done! Max Verstappen is Formula 1 world champion for the third time in a row, equaling great champions like Sir Stewart, Lauda and Ayrton Senna. After an exciting year for the Dutch driver, he was crowned world champion at the end of the sprint race won by young Australian talent Oscar Piastri.

There is no doubt that the total domination shown by Max Verstappen will go down in the history of sport.
